## NARROW ESCAPE OF A SAILING SHIP.

The British ship *Federated* (Captain J. Thomas), which arrived, on December 1 from Cambodia via Cape Town with a cargo of coals for the Admiralty, reports that she was nearly driven ashore on Ombay on October 15 at 4 a.m. She was four miles west of the South-East Cape and was nearly round the Point when it dropped a calm; the current caught the ship and carried her in shore but brought up in time in eighteen fathoms of water, where she remained eight days, with easterly winds and calms, and strong S.W. currents running down the Channel. The natives in their canoes ; they were very poor but most civil, and it was found they were all Christians. Capt. Thomas said his experience was quite of an opposite nature to the remarks in Flinders' Book of Directions for the Indian Archipelago; those remarks might have applied two hundred years ago. Two natives said that the *Federated* was the first ship that ever anchored at the island. A plentiful supply of fowls, fish and coconuts was obtained. One man of the many who came on board could speak English, and said that a ship had gone aground on the North side of the Island about 1st October, and that the crew were taken off by another ship sailing company. The natives landed her cargo of coal on the beach.

## STORAGE AT MANILA.

Owing to the congestion of goods at the Customs warehouses at Manila, General Smith, the Collector of Customs, recently called a meeting of the merchants to discuss the matter. The General intimated that he had given every facility for the merchants to remove their goods, minus the samples for inspection, within twenty-four hours after their arrival in the bay. Very few, however, availed themselves of the privilege, and in spite of all his efforts the Customs godowns were piled from floor to ceiling with goods. The vessels had been crowded on account of the state of affairs, so that they had threatened to make a claim for demurrage to every ounce of cargo brought in. The General maintains he has endeavoured to improve this congested condition, but apparently without avail. Now, after a reasonable time if the various merchants working through their various boards of trade, could not relieve him of this extra burden he should, after proper notification, charge storage on all merchandise at the rate of \$10 for every cubic ton; if this brought no relief he should charge \$20 a ton, and if that still failed to improve the condition, he should make it \$40 a ton. General Smith said that in his opinion, the most favourable solution of the problem was the erection of a bonded warehouse by some private corporation. He said that there was only one class of importers who, as a whole, had given him no trouble along the indicated lines, and those were the Chinese. So far from leaving their merchandise to clog the wheels of the administration, they did not even want it placed in the warehouses at all, but asked permission to leave it in the yards, where they would掌管 their own property. After three or four days their goods were usually cleared, both technically and officially, so they would begin loading them away as soon as the inspectors had finished work.

## PIRE.

Yesterday morning fire broke out, it is believed through the explosion of a kerosene lamp, in an umbrella and shoe shop at 278 Queen's Road Central. The ground-floor was gutted, but the men of the Central Fire Brigade saved the other part of the building. Damage was done to the extent of about \$5000. The premises are insured with the Northern German Insurance Company. An exciting incident occurred during the conflagration. Sergeant McKay and Noble and Constable Brownfield and Baker were standing on a sidewalk playing water on the flames, when it gave way and all four fell to the ground. Three Chinese firemen were also injured by the fall of the gunnade. The men were all conveyed to the Central Hospital, but the injuries are not dangerous.

# **NEWS FROM THE NORTH.**

---

The local mandarins have received the following dispatch from Canton: "Owing to the help given by the French naval authorities to the Imperial Government in Kuangtung province during the recent rising of the Triads, the French officials are now pressing hard upon the Acting Viceroy of the two Kuang at Canton, Te Shou, for a concession of land, said to be near Shamian, the general Foreign Settlement of Canton. Apropos, the Japanese who are also on the qui vive, have followed the French lead and have also demanded a concession for themselves. No definite result to those demands has as yet been

## Accesses of Foreign Troops.

okio, November 21.—A certain party returned from Peking a short time ago stated in the course of an interview that Chinese troops in the neighbourhood of Tientsin are engaged in the suppression of local Boxers, avoiding a collision with Allied troops, but that the latter attack Chinese troops and the Boxers without any discrimination. The Allied troops are marauding the houses and playing havoc among the natives. No wonder the Chinese are indignant at the excesses of the foreign troops and are ready to rise against them. The orders from the Chinese Government are no longer respected in the empire and a condition of anarchy prevails. It is feared that the Chinese will rise in a general outbreak when communication is broken during the winter.
